

FERTILITY NURSE

Expressions of interest are sought from a dynamic nurse with current AHPRA registration who has fertility experience.

About the role:

We operate two boutique clinics on the Sunshine Coast with a satellite clinic in Bundaberg Queensland. A rare opportunity has become available within our clinic with a nursing position currently on offer. This position is based primarily at our Buderim clinic on the Sunshine Coast, this position reports to the nurse manager. The applicant must have a minimum of 1 year fertility nursing experience.

Responsibilities include:

- Working within a dynamic multidisciplinary team to ensure that we continue to be the clinic of choice for fertility services by providing exceptional customer service, respect to all and a holistic approach with scientific opportunities
- Participation in the promotion of Fertility Solutions and Affordable IVF services
- Able to perform transvaginal ultrasound scans for follicle tracking, intrauterine inseminations and embryo transfers or be willing to be trained in these procedures

Ideally you will bring:

- IVF nursing experience and knowledge
- Outstanding communication skills
- Ability to prioritise and time manager effectively
- Ability to assist in the coordination and management of patients having a range of treatments including ovulation induction, intrauterine insemination, IVF and Frozen Embryo Transfer Cycles.
- An ability to promote cohesiveness within a small, multidisciplinary team
- A willingness to embrace and promote the practices mission and value statement and philosophy
